

Timeline of the Germ Theory of Disease

Provide the date and a short summary of the contribution provided by each person named on the timeline below.

A vertical timeline on the left side of the page, with a grey background and white text. The years 1650, 1700, 1750, 1800, 1850, and 1900 are marked on the timeline. Lines connect these years to boxes on the right. Each box contains a name and a date line. The names listed are Hooke, Leeuwenhoek, Schleiden, Schwann, Siebold, Semmelweiss, Virchow, Nightingale, Pasteur, Lister, Koch, and Halsted.

1650	_____ 1665 Hooke
	_____ Leeuwenhoek
1700	_____ Schleiden
	_____ Schwann
1750	_____ Siebold
	_____ Semmelweiss
1800	_____ Virchow
	_____ Nightingale
1850	_____ Pasteur
	_____ Lister
	_____ Koch
1900	_____ Halsted
